Test Results: Genotype of Sloughi tested is Normal

Risk for developing Sloughi PRA: Will never develop Sloughi PRA.

Significance for breeding: Can be bred to any Sloughi and will produce no pups affected by Sloughi PRA.

This interpretation is based on the test result of the DNA test for the specific mutation identified as causing PRA in Sloughis as of the date on this report.

For further information, please consult the OptiGen website at www.optigen.com.

International DNA Based Genetic Database: To register this result with OFA, make a copy, sign below, mail WITH FEE, to OFA, 2300 E. Nifong Blvd, Columbia, MO 65201-3856 or FAX to 573-875-5073. www.offa.org

I hereby certify that the sample submitted was of the animal described on this application. I authorize the OFA to release all information on the test results thus placing the results in the public domain and I hereby release OFA from any and all liability associated with the release of test information.
